This 2019 special anniversary Supplement is a series of "deep dives" into discrete trust-related doctrinal topics of current interest to our subscribers, a series of essays as it were. It is not a direct textual updating of the content of *Loring and Rounds: A Trustee's Handbook* (2019). Accordingly, the chapter, section and sub-section headings in the Supplement are independent of and unrelated to the chapter, section and sub-section headings in the Handbook.
